| | Cultured isolate | Microbiome data |
|--|------------------|--------------------|
| Varibaculum cambriense | | |
| Sutterella wadsworthensis - | | |
| Streptococcus canis - | | |
| Staphylococcus pseudintermedius - | | |
| Ruminococcus gnavus - | | |
| Proteus mirabilis - | | |
| Porphyromonas macacae - | | |
| Porphyromonas gulae - | | |
| Phocaeicola vulgatus - | | |
| Peptostreptococcus russellii - | | |
| Peptostreptococcus canis - | | |
| Peptoniphilus Ilacrimalis - | | |
| Pediococcus acidilactici - | | |
| Pauljensenia radingae - | | |
| Parabacteroides distasonis - | | |
| Megasphaera elsdenii - | | |
| Megamonas funiformis - | | |
| Mediterraneibacter torques - | | |
| Mediterraneibacter massiliensis - | | |
| Limosilactobacillus reuteri - | | |
| Levyella massiliensis - | | |
| Lactobacillus johnsonii - | | |
| Lacticaseibacillus rhamnosus - | | |
| Kallipyga massiliensis - | | |
| Ignavigranum ruoffiae - | | |
| Helicobacter canis - | | |
| H <u>e</u> lcococcus kunzii - | | |
| Finegoldia magna - | | |
| Fenollaria timonensis - | | |
| Ezakiella coagulans - | | |
| Escherichia coli - | | |
| Enterococcus avium - | | |
| Corynebacterium pyruviciproducens - | | |
| Corynebacterium jeikeium - | | |
| Corynebacterium frankenforstense - Corynebacterium auriscanis - | | |
| | | |
| - Corynebacterium amycolatum - Collinsella tanakaei | | |
| Campylobacter rectus - | | |
| Campylobacter helveticus - | | |
| Bifidobacterium longum - | | |
| Bifidobacterium gallinarum - | | |
| Bacteroides uniformis - | | |
| Bacteroides thetaiotaomicron - | | |
| Bacteroides fragilis - | | |
| Anaerococcus obesiensis - | | |
| Alistipes putredinis - | | |
| / monpoo patrodinio [| | |
